FRIDAY, JAN. 25, 1889.

VERY DIGNIFIED AND GENEROUS.

Elsewhere in our columns will be found a report of the meeting of the Qu'Appelle Conservative Association. The publisher of THE PROGRESS has had his eyes opened to the very great importance attached to anything that may be said in its editorial columns, by the fact that the President of the Qu'Appelle Conservative Association deemed it of sufficient consequence to call a special meeting of that body, for the express purpose of taking into consideration the language contained in a small paragraph in its issue of the 14th inst. The very thought of the thing is surprising and flattering. We will remember about three years ago, when Hon. Mr. Dewdney, then Lieut. Governor, was foully assailed, THE PROGRESS was among the first of the Northwest papers to come to the defense of His Honor; but we never expected or even dreamed that the Conservative Association would hold a special or any meeting thanking us for the course we had taken. Neither did they; nor have they at any time in any way recognized THE PROGRESS heretofore, but we find at last that merit will sooner or later receive recognition. Thanks, gentlemen, we are really overwhelmed by the supreme generosity of the action of last Monday evening's meeting.

STRONG LANGUAGE.

The Qu'Appelle Conservative Association "protests" against THE PROGRESS making use of the words "the despot who would make a mockery of the people of the Northwest" when applied to His Honor the Lieutenant Governor. Yes, these are strong words if forcibly wrenched from the context in which they are used; as strong in fact that we would feel it our duty to apologize to His Honor and to our readers for having used them, if we could disassociate them from the subject with which they were connected. The lamentable fact recognized by experience has shown that a class of a few words in the Northwest Territories Act, has been made the foundation of a system that has all but destroyed the force of what was intended to be a strong Prohibitory enactment. That the Lieut. Governor of the Northwest Territories should be clothed with the powers he possesses in respect to the importation and sale of intoxication liquors is, we believe, deplored by all; and if we are to believe what they have said, the several incumbents of that office regretted it most of all. Such being the case, for the best of reasons the Lieut. Governor should be particularly careful how he exercises those powers. His aim in that respect should be to give the least possible offence to the people he governs. We believe that was the view of Mr. Dewdney when he filled

that office, and his action in administering the Prohibitory law met with very little condemnation, and must therefore have given pretty general satisfaction. Knowing this, however, Mr. Dewdney's successor saw fit at one fell stroke of the pen to introduce the principle of LICENSE into our country, though such action had not been asked for by the people in any public way whatever. It was done too at a time and in a way calling for condemnation, which was virtually given by the people's representatives, and when His Honor found that they did not approve, he very politely told them he would continue as he had begun without their assistance. No mild language could properly designate such action; but, it is said, strong language is not argument. True, neither is argument necessary to show that the sun shines; it is self-evident. It is said further that a cause gains nothing by the use of strong language. We grant that; but does the Conservative Association assume to itself to speak for the cause that was affected by the language used in THE PROGRESS, which is protested against? View the matter as we will, there was small ground for the action of the Association, especially as that body never endorsed or approved in any way previously recognized THE PROGRESS.

NOT A "DESOT."

In view of the "protest" of the Conservative Association, we feel it our duty to say that in the exercise of his duties as Lieutenant Governor of the Northwest, His Honor Joseph Royal has not acted in such a manner as to entitle him to be termed a "despot" in the general acceptance of the term, nor did we use it in that sense. On the contrary, he has shown himself ready to be guided by the people's representatives, in almost all matters pertaining to the welfare of the country and in every way facilitated them in their work. He has also exhibited a strong desire for a still greater measure of responsible government than we now have. It is only in the application of our Prohibitory law that he has acted in the first instance without the joint approval of the people's representatives and subsequently contrary to their expressed opinion. We have also the assurance of two of the members of the press at Dominion Cabinet that Mr. Royal was entirely responsible for his four per cent. permits and that he was not acting under instructions from Ottawa. In view of the fact that this is a much vexed question, and one that in other portions of the Dominion is relegated as far as possible to the people themselves, His Honor's action was exceedingly arbitrary, to say the very least. It appears in a still worse light when it is considered that there are thousands of people in the Northwest who look upon Prohibition as their right, in fact one of the most cherished government rights they possess. Such being the case no really candid man can deny the truthfulness of the language applied by THE PROGRESS to the Lieut. Governor in the connection in which it was used. It is said that Mr. Royal in his present position is the representative of the Queen, and as such should be above criticism. He pursues a "harsh and incomprehensible" policy in one particular line, while in all others his actions are commendable. THE PROGRESS is not so possessed with the idea of the divine right of kings as to deter it from defending the people's rights.

The Qu'Appelle Conservative Association should next turn its attention to Mr. N. F. DAVIS, M.P., and the Regina Leader. It will find lots of scope there for its "strong language" racket.

AHEAD OF ALL. I have used HAZARD'S Pectoral Balsam in my family for years and have found it ahead of any preparation of the kind in curing colds, etc. I can especially recommend it for children. ALMA MORTIMER, Millbrook, Ont.

It is stated on trustworthy authority that the British Government has decided to uphold the treaty by the terms of which European powers are precluded from obtaining or attempting to obtain prominence in Samoa. The Government has been fully informed, shares the United States Government's views on the subject. It is agreed that the action of the German agents in Samoa is opposed to the letter and spirit of the treaty; that it violates diplomatic etiquette and endangers the good relations so necessary for Europeans to preserve when dealing with semi-barbarous nations. Despatches to this effect have been sent to Berlin. Lord Salisbury's latest news from Asia, is of a threatening nature. In consequence of these advices, the British fleet in the Pacific will be increased immediately by, at least two powerful vessels. After Mr. Phelps had left Lord Salisbury today, Count Von Hatzfeldt, the German ambassador, had an interview with the Prime Minister. The Chronicle's correspondent at Berlin learns on good authority that Germany has come to a definite understanding with the United States with regard to Samoa.

Curtail me, I become a slender shred,
And the what I next take I go to bed;
But on excursion am without my head.
Again complete me, next take off my head,
Then will be seen a savory dish instead;
Again behold me, and, without dissection,
I'm what your fruit is when in full perfection.
Curtailed, the verb to tear appears quite plain;
Take head and tail off—I alone remain.

The superlative of temper—Tempest.
The best prescription for a poet—A composing draught.
The difference between a spendthrift and a pillow—One is hard up, the other soft down.
The smallest bridge in the world—The bridge of your nose.

It is a very good reason for not giving credit at "an knoection," that all goods brought to the hammer must be paid for—on the nail.

The Dice Gossiped Unseen.
A pair of dice being thrown, to find the number of points on each die without seeing them: Tell the person who cast the dice to double the number of points on one of them and add 5 to it; then to multiply the sum produced by 5, and to add to the product the number of points upon the other die. This being done, desire him to tell you the amount, and, having thrown out 25, the remainder will be a number consisting of two figures, the first of which, to the left, is the number of points on the first die, and the second figure, to the right, the number on the other. Thus: Suppose the number of points of the first die which comes up to be 2 and that of the other 3. Then if to 4, the double of the points of the first, be added 5, and the sum produced, 9, be multiplied by 5, the product will be 45; to which if 3, the number of points on the other die, be added 48 will be produced, from which, if 25 be subtracted, 23 will remain, the first figure of which is 2, the number of points on the first die, and the second figure 3, the number on the second die.

A Puzzler for the Driver.
Never say the fair sex haven't a mind for business. Two ladies inquired the price of hack fares, and finding it was 25 cents, asked: "What do you charge for carrying baggage?" "Nothing," answered the driver. "Well, you may carry the baggage and we will walk," said the ladies.

Short and Sharp.
An actor that plays a leading part—The blind man's dog.
Joint education—Gymnastics.
The complaint that people with a "will of their own" suffer most from—Stiff neck.

Comparisons in Rhyme.
As slow as the tortoise—as swift as the wind;
As true as the Gospel—as false as mankind;
As thin as a herring—as fat as a pig;
As proud as a peacock—as little as a grig;
As savage as a tiger—as mild as a dove;
As stiff as a poker—as limp as a glove;
As cool as a cucumber—as warm as a toad;
As fat as a drummer—as round as a ball;
As blunt as a hammer—as sharp as an awl.

Puniana.
The crow is the most rational of bipeds—It never makes a noise without caws.
Men of note—Those whose faces you see on greenbacks.
Out of season—An empty pepper box.
A person who should be "rapped in slumber"—One who snores.

Happy Hints.
The animal most susceptible of attachment to man—The leech.
The chief peculiarity of the Canadian climate—It is beneficial to bank customers.

Dress of the Old Statesmen.
(See Page 2.)
Luke P. Poland is the only relic of the old statesmen of the days of Clay, Calhoun, and Webster. He still clings to the swallow tail coat with the bright gold buttons which were used by all of the fashionable men of that time. It is cleaner and prettier than the rince Albert, or the cutaway of the present. In fact, the dress of man has been growing simpler during the past century. Washington, who died in 1799, wore rince Alberts, and half of the men who signed the declaration of Independence wore powdered wigs. Jefferson sported knee breeches, and Madison was proud of having worn a suit of clothes of American make at the inauguration of Andrew Jackson. Webster usually wore a suit of snuff brown cloth, with a large, soft bow tie. Martin van Buren was very fastidious about his clothes and always appeared during the campaign in the white of white duck cloth. His clothes were cut in the latest styles, and he wore very high, stiff boots, out of which peeped his standing collar, making his head look like that of John the Baptist on a platter. Andrew Jackson also dressed in a great manner. He wore a high collar, a great waistcoat, and a pair of breeches. He was very particular about his appearance and the discussion involved the queen of England herself.

AN INDULGENT HUSBAND.

"Yes, so George says," responded Mrs. Spiteful, quietly; "sometimes he indulges too much, doesn't he?"

QU'APPELLE.

- More snow.
- Another chinook yesterday.
- The sleighing was injured by yesterday's chinook.
- One of our staff of printers, Mr. R. D. McLean, is seriously ill with inflammatory rheumatism.
- Hon. Laurence Clarke of the H. B. Co., Prince Albert, was in town during the past week.
- Mr. A. C. Paterson, inspector of weights and measures, has returned from his eastern trip.
- Mr. J. B. Robinson is gaining strength slowly. We hope soon to be cheered by his genial presence again on our streets.
- On account of previous arrangements the lecture of Rev. G. Daniels, of Regina, will be postponed until further notice.
- Messrs. J. Burghall & Sons have located here as contractors and builders. Their advertisement will be found in another column.
- The finance committee of the municipal council have instructed the tax collector to distrain for taxes all who have not paid up by the 10th of February. It would, therefore, be advisable for those interested to govern themselves accordingly.

—We learned after going to press last week that Mr. Leslie Gordon had been confined to his house for several days with a severe cold, which had affected his lungs. We are pleased to be able to state that he has been able to be at his office for the last three days attending to business.

—Sergt. Richards has been sent to take charge of the mounted police post at St. Louis. That being the end of the Manitoba and North-western railway near the Manitoba boundary, it is an important point and requires a vigilant officer. The Sergt. made many friends during the time he was here. We are informed that he has been recommended for promotion to staff rank.

—A petition is being circulated asking the clerk of the supreme court, Mr. Dixie Watson, to appoint a deputy clerk at this place, and that Mr. A. M. McLean be appointed.

—The change of time in holding the Methodist Sunday School to 11 o'clock worked well. Last Sunday was the first under the new arrangement. It is really a teaching service for old and young, and very profitable and interesting. All are welcome.

—We understand that Mr. S. H. Caswell has definitely decided to start a creamery here in the spring. Arrangements are now in progress. Farmers should turn all the money they possibly can into stock, and take advantage of the boom. It is intended to offer all farmers within a radius of seven or eight miles good facilities for disposing of their milk, and outside of that limit to say fourteen miles facilities will be offered for taking the cream.

—A grand carnival will be held at the Qu'Appelle skating rink, on the 30th inst. The following prizes will be given: for best lady's costume, choice between a neat work-box or an elegant snowshoe which-holder; for best gent's costume, a handsome snowshoe inkstand; for best comique, splendid gent's shaving and dressing case; for best girl's costume, a nice autograph album; for best boy's costume, \$1.50. There will be music in attendance. The ice will be open to skaters in costume only from 1930 to 21 o'clock. Admission 25 cents; masqueraders free; season tickets suspended.

—The anniversary of the Qu'Appelle Branch Bible Society will be held in the Presbyterian church, on Friday evening, Feb'y 1st, at 20 o'clock. Rev. A. Andrews, agent of the Society, and others will deliver addresses on the work of Bible distribution. A collection will be taken on behalf of Upper Canada Bible Society. The Committee are requested to meet in the church at 19 o'clock to receive the reports of the Secretary-Treasurer and Depository, and for the nomination of officers for the ensuing year. This society is not doing its work in the interest of any one church, but like its parent organization, the British and Foreign Bible Society is a ried forward by Christians of all denominations. We trust there will be a good attendance at the public meeting.

—Owing to the serious illness of one of our staff, Mr. R. D. McLean, and the fact that we are crowded with job printing, the amount of local and editorial matter in this issue is not up to the standard we have fixed for THE PROGRESS. Still a comparison of this paper with others in towns of the same size and having an equal amount of advertising patronage, will show that in point of price, amount, interest and character of our reading matter, and general make up, we excel them by a very large per centage. Also, in point of respectability and the general tone of our columns, a comparison with other secular papers will demonstrate the fact that our paper is free from those offensive personalities and vulgarities which characterize so many papers. Did it ever occur to the "protesting" gentlemen to make such comparisons as we suggest above?

A CURE FOR DEAFNESS.

QU'APPELLE HUNT.

—A meeting was held in Mr. Osler's office on Saturday afternoon, the 10th inst, for the purpose of starting a hunt club. The meeting heard the report of the organizing committee and those present decided that sufficient funds were guaranteed to justify them in starting a club. A club was then formed to be called the "Qu'Appelle Hunt." Mr. H. Peck was appointed master and huntsman, Mr. A. H. B. Sperling secretary, and Messrs. J. H. Mac-Caul, W. C. Cameron, J. Scott, R. F. B. Dopping-Hepental, and A. Webster were placed on the committee. It was resolved to ask His Honor Lieut.-Gov. Royal to become patron and Hon. E. Dewdney and the Rev. W. G. Lyon, vice-presidents. The club has bought 5 couples of hounds from the Toronto hunt club, and kennels will be put up as soon as possible on the master's place. The annual subscription was fixed at \$10; five members promised to give \$25 each to start the club, and 28 have joined at \$10 thus giving the club \$405 to start with. The organizing committee did their best to ask all to join and any gentlemen who have not been asked, and who care to join, are requested to send in their names to the secretary. It is to be hoped that all who care for hunting not only here but at Fort Qu'Appelle, Indian Head and other places, will join the club. The first meet will be held as soon as the weather breaks up.

CONSERVATIVE ASSOCIATION.

On Monday evening last a meeting of the Qu'Appelle Liberal Conservative Association, was held in McLean's hall, at which there was an attendance of 25 members. The President, Mr. A. Webster, said that his attention had been directed to a paragraph appearing in THE QU'APPELLE PROGRESS, of January 4th, using certain language in reference to His Honor, the Lieutenant-Governor of the Northwest, and he had taken upon himself the responsibility of calling a meeting of the Association to lay it before them for their consideration. He then read the paragraph, which was as follows: "The Regina Board of Trade is lending itself to the debauching four per cent. system of Lieut. Governor Royal, the despot who would make soris of the people of the Northwest. The Journal claims that the Board of Trade resolution does not voice the sentiments of the community and challenges the Board to call a public meeting and open up the whole four per cent. question for discussion."

Two new members were then added to the roll. It was then moved by Mr. H. A. Astland, seconded by Mr. R. D. Dundas Strong and resolved "That the Qu'Appelle Liberal Conservative Association is (without expressing any opinion on the merits of the interesting liquor question in the Territories) hereby protesting against the terms applied by the Qu'Appelle Progress in its issue of 4th January, 1889, to His Honor Lieut.-Gov. Royal."

After discussion, the resolution was carried, all present voting for it except two.

On motion it was ordered that a copy of the resolution be sent to His Honor the Lieutenant Governor.

It was then moved by Mr. W. S. Redpath, seconded by Mr. J. H. Mac-Caul, "That the Qu'Appelle Liberal Conservative Association begs to tender the Hon. Sir John Macdonald, their hearty congratulations on the occasion of his celebrating his seventy-fourth birthday, and would express their belief that it is with the most unfeigned satisfaction that he is still in the enjoyment of the best of health and trust that he may long continue to be able to guide the affairs of the Dominion in the same wise and successful manner as he has for the last fifty years passed, and we are every day more fully aware, in the fact that his leadership will lead the Dominion to prosperity."

A copy of the foregoing was at once ordered to be sent to the Hon. Sir John A. Macdonald.

A VALUABLE DISCOVERY.

F. P. Tanner, of Nechem, Ontario, says he has not only found B. B. B. a sure cure for Dyspepsia, but he also found it to be the best medicine for regulating and invigorating the system that he has ever taken. B. B. B. is the great system regulator.
